

EVER SEEN ANYTHING LIKE IT? Steele Had to Quit Railroad- ing on Account of Bad Health — Gains Fifteen Pounds Taking Tanlac.

"I could speak with everybody personally who has stomach trouble and rheumatism, I would tell them to take Tanlac for I have tried it myself and have never seen anything like it," was the statement made by J. T. Steele, of Shirley, Ill., recently. Mr. Steele, who is now employed in a general store in Shirley, was formerly a conductor on the L. & N. railroad, which position he held for five years on account of bad health.

"A number of years ago, while railroad engineer," he continued, "I began suffering from stomach trouble and rheumatism and kept getting worse in spite of all I could do. My appetite left me and I would suffer terribly from indigestion and gas on the stomach after every meal. My head ached a great deal of the time. I also suffered from rheumatism and felt tired, worn out and no account all the time. I simply got to where I had to be as careful as a baby about my eating, was very pale, and finally became so thin and weak I was forced to give up railroad engineering altogether.

"About this time I began to see Tanlac recommended very highly and decided to see if it would help me as others said it had. My stomach soon got in shape to eat, and I could eat cabbage, beans, meats, potatoes and just anything else I wanted without the slightest trouble. Afterward, I kept on taking Tanlac and when I finished my fifth bottle my rheumatism and all my other troubles had disappeared and I had gained fifteen pounds in weight besides. That was nearly three years ago, but I still have my weight and feel fine to this good day. So I can testify to both the immediate and lasting results that come from the use of Tanlac, and I firmly believe it is the best thing I did for myself today suffering like I did before I took Tanlac and if I can show them the road to health I think it is nothing but right that I should do so."

Tanlac is sold in Memphis by Warrick Drug Co., 244 Beale St., and all the leading druggists in practically every city, town and village in America.

ASTHMA FOR MANY YEARS

Memphis Woman in Such Condition She Couldn't Work.

LIFE SAVED, SHE FEELS

No Symptom of This Disease Since Taking Lung-Vita.

"I suffered with asthma for years and tried a number of doctors and medicines without any relief," said Mrs. L. M. Brown, 744 Beale St., Memphis, Tenn., in a statement given June 1, 1917. In this statement Mrs. Brown further said:

"I was in such a condition that I could not work at all. A friend of mine, knowing how I suffered, brought me a bottle of Lung-Vita and insisted that I take it. I took the one bottle only, but when I had finished it my asthma was entirely gone. I was over five years ago and I have not been bothered since. In a letter dated August 23, 1918, Mrs. Brown said: 'I feel safe in saying that the medicine saved my life. That is a lot to say, but I feel that I am in better health than I have been for many years and I love it to Lung-Vita. I am a druggist dealer should handle Lung-Vita, but if he won't supply you, write Nashville Medicine Co., Nashville, Tenn., for free booklet.'"

GIRLS

No One Will Know You Use Face Powder

If you use dermivite, the very latest thing in powders, it's impossible to detect it and it's the skin that does the peach-like appearance and baby softness everybody raves about. You put it on in the morning and it stays there all day. No touching up to keep your nose from shining. Dermivite does not affect it and it will not rub off on clothing. It instantly beautifies the complexion, puts color in your cheeks, and is a wonderful tonic for the skin. It prevents blackheads, coarse pores, hides freckles, tan, sun spots and other blemishes on the face, neck, hands and arms. Rough, chapped skin quickly disappears and leaves you with a complexion of youth, which will attract attention anywhere. Apply dermivite before going to theater or parties and just note the favorable comments of your friends. It feels so good on your face that you will never be without it, and you will forever discard the old form of face powder. It cards the old form of face powder, which clogs the pores or injures the skin, such as blamut or pear white, so often found in many high grade powders. Its principal ingredient is used by the leading skin specialists in the treatment of many skin diseases, as it is a genuine tonic to the skin, is absolutely harmless and will not stimulate or produce a growth of hair. Here is a fair offer: Get a package from your druggist today, use it for a week or two, and if you are not satisfied ask him for your money back and he will gladly give it to you. If you are not something out of the ordinary, do you suppose we could afford to make you a beautiful complexion, here is your chance to have one without any expense if it fails. Ask for dermivite and be disappointed.

NOTE: When asked about dermivite you will not find it in any of our druggists' stock. It is a wonderful beautifier, away ahead of anything we have ever sold and there is no other like it. It is giving such excellent satisfaction, that we gladly refund the money to every dissatisfied customer. Dermivite is sold under 25 brands, money back guarantee in this city by all druggists, including Messers Robinson and Hammer & Ballard.

Best Treatment for Catarrh S. S. S. Removes the Cause

By Purifying the Blood.

Once you get your blood free from impurities—cleansed of the catarrhal poisons, which it is now a prey to because of its unhealthy state—then you will be relieved of Catarrh—the dripping in the throat, hawking and spitting, raw sores in the nostrils; and the disagreeable bad breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with someone who had a cold. But the point is—don't suffer with Catarrh—it is not necessary. The remedy is S. S. S., discovered over fifty years ago, tested,

Mississippi River Commission Will Co-operate With Memphis Officials—Conference Held With Commission

Members of the Mississippi river commission, at a conference with members of the Chamber of Commerce and with the commissioners recently appointed to have charge of the city's municipal terminal docks, assured them that they would receive the cordial co-operation and assistance of the river commission, both in the planning and location of the municipal wharf plant and in the protection of the Memphis harbor from water front.

J. R. Edgar presented briefly the case of the terminal commission, which was only recently appointed, and which had not yet been formally organized. The other members are S. E. Anderson and L. M. Stratton, both of whom attended the conference. The commission is authorized to sell \$200,000 of municipal terminal bonds, and may either enlarge the present terminal plant at the foot of Georgia avenue, construct an entirely new plant at another location, or sell the present plant and invest the proceeds with the funds from the bond issue, in terminals at some other more suitable point.

The present terminal, bought from the River and Rail Storage company last year at a cost of \$225,000, are equipped only for the handling of packing cases. Much objection was made to the purchase by the river terminal committee, which have been investigating the need of terminals and of suitable sites, for nearly a year. That committee was composed of representatives from the Chamber of Commerce and from every commercial organization. Failing to agree upon a site, the committee turned the entire question over to the mayor and city commissioners.

The city commission placed it in the hands of C. W. Miller, then commissioner of streets, bridges and sewers, with power to act. Mr. Miller reported in favor of the River and Rail Storage plant, which the city commission then bought, paying for it \$225,000.

The large business interests of the city, firms and corporations which handle shipments in carload lots, protested but without avail.

The result was that after several meetings of the river terminal committee with members of the traffic and transportation committee of the Chamber of Commerce, that a bill authorizing a new bond issue of \$200,000 was sent to Nashville, in which three commissioners have full charge of the building and operation of the proposed terminals were named. That bill was passed and is now a law.

At the hearing Thursday Col. C. McD. Townsend, president of the Mississippi river commission; J. A. Ockerson, who has been a member of the commission since 1898, and others, assured the Memphis delegation that every step will be taken to hold the Memphis point and prevent any further danger of the point being washed away, which would permit the river possibly to make a new channel along the Arkansas shore and might change the entire water front of Memphis.

Col. Townsend also, in response to the brief address by Milton H. Hunt, of the Memphis delegation, regarding the caving of the banks on the Memphis water front, said that he would have his engineers investigate and report, and that steps would then be taken in the matter.

H. N. Pharr, chief engineer of the St. Francis levee board, made a written report of the danger from caving banks near the levees in the vicinity of Barndes bend, Osceola bend, Luskra, Golden Lake, Bruins and Wynoke. He also presented a petition from residents and members of the board at the levee system near Helena, asking for the building of a little over four miles of new levee. He was asked to file a supplemental report showing the most needed work, as the commission's appropriations for this year is almost all expended or provided for in pending contracts.

Maj. T. G. Dabney, chief engineer of the upper Yazoo district, and B. P. Mangum, of Tunica, a member of the board, presented a brief report asking for continued appropriations, mainly for necessary reclamation work.

Among the members of the Chamber of Commerce committee who met the commission were, besides Mr. Hunt and the terminal commissioners, Judge A. C. Floyd, J. L. Norfleet, C. C. Hanson, S. L. Calhoun and others.

The steamer Mississippi, the commission's official barge on the river, remained at the wharf at the foot of Monroe avenue until Friday morning, when the trip to New Orleans was resumed. On board were all the members of the commission, Col. Townsend, Col. James G. Warren, Col. Lansing H. Beach, J. A. Ockerson, St. Louis; Homer P. Ritter, Boston, Mass.; C. H. West, Greenville, S. C.; Edward A. Glenn, Louisiana, Mo.; and E. J. Thomas, assistant engineer, acting secretary of the commission.

PIGGLY WIGGLY EXTENDS FROM COAST TO COAST

A group of bankers Thursday contracted with the Piggly Wiggly corporation for all of California, including and south of Fresno. In this territory are 15 cities, of which Los Angeles, with a population of a half million, is the largest.

Piggly Wiggly stores were recently opened in New Mexico, Arizona, Idaho, and when the Southern California group is opened Piggly Wiggly stores will extend from coast to coast.

There are now 15 Piggly Wiggly stores in operation in Chicago and the operators are opening a store a week. With stores in nearly every city in Texas and seven in New Orleans, these stores reach from the gulf to the lakes.

Piggly Wiggly stores are in operation in 55 cities in the United States, and contracts have been entered into to open them in more than 100 towns.

Other stores recently opened include Milwaukee, Wis.; Savannah, Ga.; and others in New Mexico.

ADDRESSES CREDIT MEN.

Experiences with base hospital No. 57 near Paris and in other war zones were related Thursday noon by Dr. Max Henning at the luncheon of the retail credit men at the Hotel Gayoso. Dr. Henning related many humorous incidents which helped to relieve the tedium of the war and also told his hearers of the great work accomplished by Americans in all branches of the service. Dr. Henning was commissioned major and devoted much of his time to work in base hospital No. 57. One hundred members of the association heard the talk. The annual banquet will be held by the association May 6.

An assemblage of Easter Apparel

In a Great Final Saturday Offering

DAINTY EASTER FROCKS AT
RADICAL SELLING PRICES
THAT MAKE THEM
UNPRECEDENTED VALUES

In these three great groups, chosen for special featuring Saturday, you will find a complete showing of the most desired dress models in a great range of the newest fabrics and colors. At these prices are included the smartly styled tailored dresses of the close-fitting silhouette type, as well as many free-flowing, draped models. Each one is an exceptional value at the price.

Dresses

\$12.50
\$14.85
\$17.85

A galaxy of beautiful Spring apparel awaits your inspection Saturday, the final selling day before Easter, the great dress-up day of the year. In every department you will find a complete showing, for our stocks, through daily arrivals are always kept right up to the minute. You will find the prices right in every single instance, for the Landres cash system assures you a distinct saving on every purchase. Not cheap merchandise, but low prices prevail.

Suits Low in Price! Big in Values! For Easter Wear

Here is an economical opportunity to meet the dress-up demands of Easter, for in these three groups of suits we are showing what we believe to be unmatched values in stylish, up-to-the-minute models. Included you will find a wide variety of style ideas developed in the season's most popular weaves, and in a great range of the desired shades.

\$14.85 \$19.85 \$24.85

TENNESSEE SOLONS ADJOURN AT LAST

Provision Is Made for Vote on New Constitution in September.

NASHVILLE, Tenn., April 18.—The Tennessee legislature adjourned last night at 10 o'clock. The legislation enacted included:

Suffrage for women in city and pre-identical elections; ratification of the prohibition amendment; creation of a state constabulary; dog law; more liberal provision for rural schools; appropriation of \$1,000,000 for a soldiers' memorial here; law making it a felony to transport more than three gallons of liquor into the state; indorsement of the league of nations; revision of the taxing system; general road law by which the state will receive federal aid. An election for a constitutional convention in September was called.

Old Courthouse Site For Sham Tank Battle

Where once were heard only the bellicent howlings and bombastic blusterings of lawyers for and lawyers against the state—the old Shelby county courthouse site at Poplar avenue and Main street, and fire away at targets erected to his heart's content. In the opinion of Serge. Thomas Odwalt and Frank Robbins, tank doctors and drivers extraordinary and manipulators of the modern fire-splitters.

It is as yet uncertain whether or not the tank here will be able to stage the sham battle in the artificial shell hole formerly the basement of the old temple of justice or injustice, which ever it was, at Poplar and Main.

Carl Chapin and Fred Benke are figuring on it, and are assured by the men in charge of the tank that safety could be assured. Other plans for the tanks being shown in action are being made, and this is considered the best one yet. The surrounding streets and

buildings in the vicinity of the old courthouse present a natural amphitheater, and there would be no danger of ricocheting bullets with targets properly placed.

Capt. M. J. Meyer, in St. Louis, in charge of the 40 tanks used in the Eagan district, has promised Messrs. Chapin, Benke et al., in charge of the tank's activities, to send 200 pounds of one-pound shells to stage a mock attack on the Hindenburg line of Fort Main street. It is reasonably sure the ammunition will be forthcoming, as a peace offer to recompense for the theft of the tank from the local committee by the itinerant crew Wednesday night.

LONG YANK ENLISTS.

He was 7 feet, 2½ inches tall and weighed 192 pounds. And he wanted to enlist in the marines.

"What's your former occupation?" asked the sergeant as he gazed skyward.

"Whippin' the Huns," replied the candidate.

An examination showed William R. Denton, aged 21, of Oxford, Miss., to be in very good physical condition, and also developed the fact that he had just concluded service with the Canadians and had escaped without injury.

Denton had been visiting relatives in Oxford since discharged, and the lure of the game brought him back into the ranks.

TRIAL FLIGHT BALLOONS BOTH LAND IN SOUTH

OMAHA, Neb., April 18.—Both United States army balloons which started Wednesday on free flights at levels of 5,000 and 10,000 feet for experimental purposes have reported safe landings to authorities at Fort Omaha.

One balloon landed at Cabot, Ark., and the other at Arvid, Miss. Messages indicate the trips were successful.

TO ADDRESS GRADUATES.

Dr. Sutton E. Griggs will deliver the commencement address to the graduating class of the negro high school at Osceola, Ark. He will return Saturday morning to push forward the closing services to be held Sunday in the old Tabernacle Baptist church.
